EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 19 – 36 have been canceled. These claims are directed to a non-elected invention. The election was made without traverse.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach the method of producing a conductor board or printed circuit board wherein an aperture in a ceramic layer is covered by metal layers, one of which is then deformed by a stamp to form a cone shaped segment while the other metal layer is supported on a rest, and the stamp and the rest are then used to electrically weld the cone shape to the metal layer that is not deformed.

The prior art also does not teach the method of inserting a body of electrically conductive material into an aperture of a dielectric layer, where the thickness of the dielectric layer is greater than that of the conductive body, and then applying metallizations to cover the aperture and deforming at least one of the metallizations, so

that both contact the conductive body and then electrically connecting the conductive body and the metallizations.

Akram, U.S. Patent No. 6,634,100, discloses an interposer and method of fabricating an interposer.

Cray et al. 5,054,192, discloses lead bonding of chips using a deformed gold lead.

Marshall, U.S. Patent No. 3,171,756, discloses a method of making a printed circuit board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy K. Potter whose telephone number is 571 272 1842. The examiner can normally be reached on M-F.
